# DESCRIPTIONS OF CENSUS DIVISIONS

For the purpose of compiling the census and to provide a means of presenting statistical data for permanent areas smaller than a province, the county municipalities were used in Eastern Canada rather than the electoral districts. In the four western provinces, there being no fixed political divisions corresponding to the counties of Eastern Canada, these provinces have been divided for statistical purposes into census divisions and subdivisions. These census divisions have been so laid out that as population increases, they may be subdivided without destroying the means of comparing the variations in population and agriculture disclosed by censuses.

The reason for using areas with fixed boundaries rather than electoral districts as a basis for the compilation of the census is that the electoral districts being liable to have their areas changed after each redistribution make it impossible to compare one census with another for areas smaller than a province.

The census divisions in each province are constituted as follows:—

**PRINCE EDWARD ISLAND.**—In the province of Prince Edward Island the divisions are the counties. The rural parts of each county are divided into townships and two royalties while the urban parts are composed of one city and a number of towns. In all provinces the Indian Reserves are treated separately as if they were incorporated into municipalities.

**NOVA SCOTIA.**—In the province of Nova Scotia, the divisions are the county municipalities except the county of Cape Breton which is subdivided into Cape Breton North and Cape Breton South. In this province, there are no rural municipalities except the county municipalities. The subdivisions used in the compilation and publication of the census have no official boundaries described by metes and bounds and are mostly polling subdivisions or groups of polling subdivisions. The urban parts are composed of cities and towns.

**NEW BRUNSWICK.**—In the province of New Brunswick, the divisions are the county municipalities. The rural subdivisions are parishes while the urban parts are composed of cities, towns and villages.

**QUEBEC.**—In the province of Quebec the divisions are the county municipalities generally. A certain number of counties have been created recently and did not appear in censuses prior to 1941. Thus, the counties of Gatineau and Hull were compiled prior to 1941 as the county of Hull; Charlevoix East and West as Charlevoix; Gaspé East, Gaspé West and Madeleine Islands as Gaspé; Lac St. Jean East and West as Lac St. Jean; Matapédia and Matane as Matane; Montmorency No. 1 and No. 2 as Montmorency; and Temiscouata and Rivière-du-Loup as Temiscouata.

The rural parts of each county are divided into municipalities of parishes, municipalities of townships, municipalities without designation, and into areas which are not incorporated into municipalities and which are grouped together as unorganized areas. The urban parts are composed of cities, towns and villages.

**ONTARIO.**—In the province of Ontario the divisions are the county municipalities. The rural parts are divided into townships and a certain number of unorganized areas. The urban parts are made up of cities, towns and villages.

**MANITOBA, SASKATCHEWAN, ALBERTA and BRITISH COLUMBIA.**—As already stated, there being no fixed divisions corresponding to the counties of Eastern Canada, these provinces have been divided into census divisions. The following descriptions show the composition of each division:—

## MANITOBA

**Division No. 1** comprises the municipalities of Birch River (1), Hanover (2), La Broquerie (3), Piney (4), Ste-Anne (5), Sprague (6), Stuartburn (7), Taché (8); Unorganized parts (9); Indian Reserves.

**Division No. 2** comprises the municipalities of De Salaberry (1), Franklin (2), Montcalm (3), Morris (4), Rhineland (5), Roland (6), Stanley (7), Thompson (8); Indian Reserves; Towns—Emerson, Morden, Morris; Villages—Gretna, Plum Coulee, Winkler.

# DESCRIPTION DES DIVISIONS DE RECENSEMENT

Pour les fins du recensement et pour fournir une présentation des données statistiques sur les territoires plus petits qu'une province, les municipalités de comté, plutôt que les districts électoraux, ont été employées dans le Canada Oriental. Dans les quatre provinces de l'Ouest il n'y a pas de divisions politiques fixes correspondant aux comtés de l'Est du Canada et ces provinces ont été, pour les fins statistiques, réparties en divisions de recensement et leurs subdivisions. Ces divisions de recensement ont été encadrées de telle manière qu'elles puissent, à mesure qu'augmente la population, être subdivisées sans détruire les moyens de comparer les variations de la population et de l'agriculture révélées par les recensements.

La raison pour l'emploi de territoire avec frontières fixes plutôt que des districts électoraux comme base de compilation du recensement est que les districts électoraux sont sujets à des changements de superficie après chaque redistribution électorale, ce qui rend impossible la comparaison d'un recensement à l'autre pour ces territoires plus petits qu'une province.

Les divisions de recensement dans chaque province sont constituées comme suit:

**ÎLE DU PRINCE-ÉDOUARD.**—Dans la province d'Ile du Prince-Edouard les divisions sont les comtés. Les parties rurales de chaque comté sont divisées en townships et deux royautés tandis que les parties urbaines sont composées d'une cité et de plusieurs villes. Dans toutes les provinces les réserves indiennes sont traitées séparément comme si elles étaient des municipalités incorporées.

**NOUVELLE-ÉCOSSE.**—Dans la province de Nouvelle-Ecosse les divisions sont les municipalités de comté excepté le comté de Cap-Breton qui est divisé en Cap-Breton Nord et Cap-Breton Sud. Dans cette province il n'y a pas de municipalités rurales autres que les municipalités de comté. Les subdivisions employées dans la compilation et la publication du recensement n'ont pas de frontières officielles décrites par des arpentages et des bornes et elles sont plutôt des subdivisions de bureaux de votation ou des groupes de telles subdivisions. Les parties urbaines sont composées de cités et villes.

**NOUVEAU-BRUNSWICK.**—Dans la province de Nouveau-Brunswick les subdivisions sont les municipalités de comté. Les subdivisions rurales sont les paroisses et dans les parties urbaines, les cités, villes et villages.

**QUÉBEC.**—Dans la province de Québec les divisions sont généralement les comtés provinciaux. Un certain nombre de comtés ont été créés récemment et ne paraissent pas dans les recensements antérieurs à 1941. Ainsi, les comtés de Gatineau et Hull étaient antérieurement à 1941 compilés ensemble comme comté de Hull; Charlevoix-Est et Ouest comme Charlevoix; Gaspé-Est, Gaspé-Ouest et les Iles-de-la-Madeleine, comme Gaspé; le Lac Saint-Jean-Est et Ouest, comme Lac Saint-Jean; Matapédia et Matane, comme Matane; Montmorency 1 et Montmorency 2, comme Montmorency; et Témiscouata et Rivière-du-Loup, comme Témiscouata.

Les parties rurales de chaque comté ont été divisées en municipalités de paroisse, municipalités de township, municipalités sans désignation et en districts qui ne sont pas incorporés en municipalités et qui sont groupés ensemble comme régions non organisées. Les parties urbaines sont composées de cités, villes et villages.

**ONTARIO.**—Dans la province d'Ontario les divisions sont les municipalités de comté. Les parties rurales sont divisées en townships et en un certain nombre de régions non organisées. Les parties urbaines comprennent les cités, villes et villages.

**MANITOBA, SASKATCHEWAN, ALBERTA et COLOMBIE BRITANNIQUE.**—Tel que déjà dit, il n'y a pas dans ces provinces de divisions fixes correspondant aux comtés du Canada oriental et ces provinces ont été divisées en divisions de recensement. Suivent les détails de la composition de chacune de ces divisions:

## APPENDIX D

### Descriptions of "Greater" Cities

**Definition of "Greater" City.**—For Census purposes the "greater" city constitutes the city proper plus the satellite communities outside the city boundary which are in close economic and geographical relationship to it. The "greater" city is sometimes referred to as the "metropolitan area". The table below shows the areas and the population included in the metropolitan centres of cities having 100,000 population and over in the city proper.

## APPENDICE D

Le tableau ci-dessous indique les zones et la population comprise dans les centres métropolitains des villes dont la population de la ville proprement dite est de 100,000 âmes et plus.
